ROOT CROP TRAILERS

ALSO SUITABLE FOR GRAIN AND SILAGE

SILAGE MODEL

ROOT/GRAIN MODEL

For the toughest jobs, you need the toughest trailers. The Redrock Root Crop Trailer range is designed with value for money in mind, without sacrificing strength, durability or quality. With 3 different monocoque body height options, including 4ft, 4ft 6in and 5ft, these trailers can be made to suit any loading application. Load carrying capacities are available in 18 tonne (20ft length), 20 tonne (22ft length) and 23 tonne (25ft length) models.

Features include:

- Sprung drawbar
- Heavy duty hitch eye
- Hydraulic up and over rear door
- Full width rear mudflap
- Full commercial 10 stud axles
- Perspex front window

Optional Extras:

- Tool box
- Manual rollover cover
- Hydraulic rollover cover
- Grain chute
- 3' Silage sides (Available on 4'6" and 5' models only)
- Various wheel options
- Ladder
- Work lights
- Various braking options

ROOT CROP TRAILERS

ALSO SUITABLE FOR GRAIN AND SILAGE

The Redrock Root Crop Trailer range is designed for strength, durability and a trouble free work life. This range is made with root crop growers in mind, consisting of a lower loading height and a larger front window, allowing for greater levels of visibility when loading. The trailer range also features a more root crop friendly rib design, reducing damage to produce during transport.

Hydraulic Up-and-Over rear doors are fitted to our trailers. Our Root Crop Trailer range is also fitted with a hydraulic door latching system.

Redrock Root Crop Trailers can also be fitted with an optional manual or hydraulic rollover cover.
